- Idukki has witnessed unprecedented natural calamities like flood, landslips landslides, etc during the Monsoon season in the consecutive years since 2018. In collaboration with the Govt. of Kerala the college has to take initiatives to form a Task Force from the student community to respond to such situations effectively.
- The indoor stadium which is appended to the college main block has synthetic floor and equipment for special sports events. But it can be upgraded to the optimum level of utility by erecting high mast LED lamps to facilitate them on all the occasions.
- The construction of indoor stadium funded by UGC has to be completed and made available to the student community.
- In spite of the fact that the college PTA and other well-wishers have instituted a sizeable number of scholarships. But mobilization of more scholarships and endowments is the need of the hour. Hence, they can be instituted in collaboration with alumni, well-wishers, retired staff members, etc.
