Report

During the Alumni Interaction and Seminar on "Research in Photochemistry - Future Perspectives" held on December 18, 2023, Ranimol Mathew, the esteemed Research Scholar from NIIST, Trivandrum, addressed the audience on valuable opportunities for chemistry graduates. She specifically highlighted scholarships available for research endeavors and shed light on job prospects post-chemistry graduation. The seminar provided attendees with crucial insights into funding avenues for pursuing advanced studies in photochemistry. Moreover, Ranimol Mathew's discourse on job opportunities served as a valuable guide for graduates contemplating their career paths in the field of chemistry. This information not only enriched the academic experience for participants but also equipped them with practical knowledge for navigating their professional journeys after completing their chemistry degrees. The event successfully combined theoretical discussions on photochemistry with practical advice, enhancing the overall learning experience for those in attendance.
